 Self-adhesive A4 - £0.75, A3 - £1.50 per sign

Appropriately sized signs (at least A3 size) should be placed in and around the area where CCTV cameras are to be located, notifying people of the existence of the cameras. These signs should also identify the owner/operator of the system and the purpose or purposes for which the data may be used so people can exercise their rights under the Act.

Signs should be placed in the proximity of the cameras so that the public are aware that they are entering a zone that is covered by surveillance equipment. The signs should be clearly visible to members of the public
